## Abstract

In this paper, we demonstrate a way to display scientific paper content that makes reading papers more intuitive and responsive.

## 1 Introduction

Lorem ipsum uno deux san.

**Outline** The remainder of this article is organized as follows:

- Section 2 gives account of previous work.
- Our new and exciting results are described in Section 3.
- Finally, Section 4 gives the conclusions.

## 2 Previous work

Once upon a time a normal paper was written: [1].

## 3 Results

In this section we describe the results. As you can see in Figure 1, something was definitely observed.

## 4 Conclusions

We worked hard, and achieved very little.
